

# HUDDLE SPACES

## BUSINESS AV SOLUTIONS

**Improve** your company and increase collaboration between your employees and clients. Perfect for short catch-ups, constant brainstorming, and quick meetings.

**Bring** your own device. In a huddle space technology is perfectly adapted to work, sharing and presenting from your own devices, whether it is a mobile phone, tablet, or laptop.

**Focus** on what matters. This small, creative collaboration space is clean, clutter free and wireless. It does not distract you and your team, and attention is fully on the topic of the meeting, call, or conversation.

**Collaborate** better with a small group. Huddle is a creative, flexible, straightforward and initiative way of meeting with all the tech tools you need readily available.

### GET THE MOST OUT OF YOUR HUDDLE ROOMS WITH:

✓ **Wall-Mount HD Displays** – Save on space and provide high-definition graphics for sharing presentations and videoconferencing.

✓ **Connectivity Inputs** – Allow users to share information from any device using HDMI, DVI, VGA and more.

✓ **PTZ (pan, tilt, zoom) Camera and Microphone** – Promote better communication with people outside of the room.

✓ **Wired or Wireless Setup** – Facilitate customized collaboration with plug-and-play or wireless streaming devices

✓ **Smartboards or Whiteboards** – Set priorities, capture information and facilitate brainstorming sessions for your next big idea

✓ **Sound Masking** – Minimize distracting noises and maintain a level of privacy inside your space.

✓ **Room Scheduling System** – Connect workers to meeting spaces through this web-based scheduling system.

✓ **Video/Audio Conferencing** – Connect with clients or a dispersed workforce anytime and anywhere through secure audio and video conferencing.
